

Problem #1 – Simple Mistake

Carly was asked by her teacher to subtract three from a certain number and then divide the result by twelve. By mistake, Carly subtracted twelve from the given number and then divided the result by three giving a final answer of 37. What would Carly's answer have been if she had followed the directions correctly?

Due date: Friday, September. 2nd, 2011

Submit to Mr. Streit in person or email your solution. Please place the POW number and your name in the Subject line of your email. If you submit it early you can get feedback and re-submit if it is incorrect.
